

# Auburn Primary School

## Hip & Ridge Framed Shade Structures

Auburn Primary School had three playground areas that they wanted to shade and a passive seating area that they wanted to provide waterproof cover over with the budget available from the Federal Government School Pride Grant Program.

Hip and ridge structures ended up being the most cost effective and efficient design solution to cover the four areas. The following size structures were installed at the school:

- 16 metres x 10 metres (shadecloth)
- 12 metres x 9 metres (shadecloth)
- 10 metres x 9 metres (shadecloth)
- 11 metres x 7 metres (PVC)

**Client:**  
Auburn Primary School

**Location:**  
Hawthorn, Vic

**Date of Completion:**  
September 2009

**Product Type:**  
Hip & ridge framed shade structure

**Fabric Type:**  
Combination of Monotec 370 Series shadecloth and Mehler FR700 architectural grade PVC

**Steel Finish:**  
Hot dip galvanised and powdercoated

**Scope of Works:**  
Design  
Engineering  
Manufacture  
Project Management  
Installation

**Area of Coverage:**  
435 m<sup>2</sup>

**Function:**  
Shade structures over playground equipment and passive seating area.
