

Carnegie Pool

Sunshade Structure

Glen Eira Council were seeking shade over the toddlers pool at this outdoor swimming facility. Due to the span required to cover the pool a framed 'Sunshade' structure was the ideal solution.

There were a number of underground pipes and services running around the pool which impacted on the final design of the structure which ended up being constructed as a 15.5 metre by 14.5 metre structure on four posts.

Glen Eira Council were so satisfied with the structure that they also ended up putting one over the learners pool as well.

Client:
City of Glen Eira

Location:
Carnegie

Date of Completion:
December 2010

Product Type:
Sunshade

Fabric Type:
Synthesis Commercial 95

Steel Finish:
3 part epoxy paint finish including a zinc rich primer

Scope of Works:
Design
Engineering
Project Management
Install

Area of Coverage:
224.75m²

Function:
Provide shade for outdoor toddler pool
