

Diamond Creek Outdoor Pool

Framed Shade Structure

As part of the council's programme for upgrading community facilities it was proposed to provide partial shade protection to the Diamond Creek Outdoor Pool.

This facility is used extensively by the local schools as part of their physical education curriculum and due to the pools East – West orientation it was decided to erect a shade structure over the shallow end of the pool.

To cover this area a four column structure measuring 23 metres x 15 metres was installed over half of the pool.

Client:
Nillumbik Shire Council

Location:
Diamond Creek, Vic

Date of Completion:
December, 2009

Product Type:
Framed Shade Structure

Fabric Type:
HDPE - Shadecloth

Steel Finish:
Luxathane coating

Scope of Works:
Design
Project Management
Install

Area of Coverage:
345m²

Function:
Shade protection over the shallow end of the outdoor pool.
