

# Le Page Primary School

## Framed Shade Structures

Le Page Primary School had four playground units that they wanted to shade with the budget available from the Federal Government School Pride Grant Program.

Due to the large spans Sunshade shade structures ended up being the most cost effective and efficient design solution to cover the four areas. The following size structures were installed at the school:

- 15 metres x 10 metres
- 14 metres x 11 metres
- 14 metres x 9 metres
- 15 metres x 9 metres

**Client:**  
Le Page Primary School

**Location:**  
Cheltenham, Vic

**Date of Completion:**  
September 2009

**Product Type:**  
Sunshade framed shade structures

**Fabric Type:**  
Synthesis Commercial 95 shade cloth

**Steel Finish:**  
Luxathane coated

**Scope of Works:**  
Design  
Engineering  
Manufacture  
Project Management  
Installation

**Area of Coverage:**  
630 m<sup>2</sup>

**Function:**  
Shade over playground equipment.
