

# Mackie Childcare Centre

## Side Post Mono Hypar Umbrella

This newly council childcare facility required shade and waterproof protection for over a section of its outdoor play area.

Councils urban design department were seeking a modern and innovative look for the structure.

Due to the layout of the play area it was proposed to use a side post mono hypar structure so that the supporting column could be located on the outer perimeter of the enclosed play space without disturbing the rubber under surfacing recently laid.

**Client:**  
City Of Monash

**Location:**  
Mulgrave Vic

**Date of Completion:**  
February 2009

**Product Type:**  
Side Post Mono Hypar  
Umbrella
