

Sunset Cafe

Europa Series Cafe Structure

The Sunset Café is located on the foreshore at the start of the St Kilda pier and has an outdoor seating area that required protection from the wind and the weather.

Due to the exposed location a double conic structure was installed over the 8 metre x 4.7 metre area with perimeter supporting columns for the attachment of retractable clear PVC blinds.

The clear PVC blinds feature additional bracing to cater for the wind load and they also allow for signage on the structure which creates a strong visual presence in this popular location.

Client:
Nestle Peters

Location:
Sunset Cafe, St. Kilda, Vic

Date of Completion:
March 2009

Product Type:
Europa Series Cafe Structure
(double conic)

Fabric Type:
PVC – Mehler FR700
