Shade Sails

The City of Kinston was seeking shade sails for over a new boat themed playground being installed at this park.

Two large central posts representing masts to the main ship formed the centre piece of the sail design contributing to the overall theme of the playground. The high masts also allowed the sails to have the height clearance required over the high playground decks.

As well as providing very effective shade over the play equipment the sails provide a visual centre piece to the play space.

Client:
All Play Playgrounds
(for City of Kingston)

Location:
Carrum

Date of Completion:
October 2011

Product Type:
Shade Sails

Fabric Type:
Monotec 370 series
shadecloth

Steel Finish:
Hot dip galvanised with an
epoxy paint finish.

Scope of Works:
Design
Engineering
Manufacture
Project Management
Installation

Area of Coverage:
260 square metres (approx).

Function:
Shade protection over boat
theme playground.
